The Journal of Genetic Psychology, 1996, *157*(4), 507–510

Index to Volume 157

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (March): 1–120
Number 2 (June): 121–240
Number 3 (September): 241–376
Number 4 (December): 377–512

AUTHOR INDEX

Andracchio, B., & Weisberg, P. *Children's understanding of equality–inequality relationships for liquid quantities: The role of minimal-difference concept examples.* 477–488.

Arthur, A. G., & White, H. *Children's assignment of gender to animal characters in pictures.* 297–301.

Assink, E., Bos, A. A., & Kattenberg, G. *Reading ability and the use of context in orthographic information processing.* 381–396.

Barnett, M. A., Quackenbush, S. W., & Sinisi, C. S. *Factors affecting children's, adolescents', and young adults' perceptions of parental discipline.* 411–424.

Bennett, M., & Cormack, C. *Others' actions can reflect on the self: A developmental study of extended identity.* 323–330.

Bennett, M., & Knight, M. *Children's understanding of the distinction between real and apparent emotions: A training study.* 267–274.

Brook, J. S., Tseng, L-J., & Cohen, P. *Toddler adjustment: Impact of parents' drug use, personality, and parent–child relations.* 281–295.

Brook, J. S., Whiteman, M., Shapiro, J., & Cohen, P. *Effects of parent drug use and personality on toddler adjustment.* 19–35.

Desprels-Fraysse, A., & Lecacheur, M. *Children's conception of object, as revealed by their categorizations.* 49–64.

Fuchs-Beauchamp, K. D. *Preschoolers' inferred self-esteem: The Behavioral Rating Scale of Presented Self-Esteem in Young Children.* 204–210.

Furnham, A., & Weir, C. *Lay theories of child development.* 211–226.

Gottlieb, D., & Bronstein, P. *Parents' perceptions of children's worries in a changing world.* 104–118.

Hayes, D. S., Gershman, E. S., & Halteman, W. *Enmity in males at four developmental levels: Cognitive bases for disliking peers.* 153–160.

Hemphill, M. *A note on adults' color–emotion associations.* 275–280.

Hjelle, L. A., Busch, E. A., & Warren, J. E. *Explanatory style, dispositional optimism, and reported parental behavior.* 489–500.

Hom, H. L., Jr., & Knight, H. *Delay of gratification: Mothers' predictions about four attentional techniques.* 180–190.

House, J. D., & Keeley, E. J. *Differential prediction of adult student performance from Miller Analogies Test scores.* 501–504.

Jones, E. F., Parker, B. L., & Joyner, M. H. *The influences of goal-related ac-*

tions and goal information on children's effort and ability perceptions in interpersonal situations. 37–48.

Kidorf, G. A., & Cox, B. D. *Effects of temporally varied biased and unbiased story summaries on the suggestibility of preschoolers.* 425–441.

Klein, H. A., O'Bryant, K., & Hopkins, H. R. *Recalled parental authority style and self-perception in college men and women.* 5–17.

Lee, K., & Chen, L. *The development of metacognitive knowledge of basic motor skill: Walking.* 361–375.

Ma, H. K., Shek, D. T. L., Cheung, P. C., & Lee, R. Y. P. *The relation of prosocial and antisocial behavior to personality and peer relationships in Hong Kong Chinese adolescents.* 255–266.

Maltby, J. *Attribution style and projection.* 505–506.

Marjoribanks, K. *Ethnicity, family achievement syndrome, and adolescents' aspirations: Rosen's framework revisited.* 349–359.

Mayes, S. D., Handford, H. A., Schaefer, J. H., Scogno, C. A., Neagley, S. R., Michael-Good, L., & Pelco, L. E. *The relationship of HIV status, type of coagulation disorder, and school absenteeism to cognition, educational performance, mood, and behavior of boys with hemophilia.* 137–151.

Molloy, G. N., Boyd, C. P., Lowe, A. R., & Molloy, R. F. *Sex invariance of 13-year-old children on Piagetian task performance.* 239–240.

Overcash, W. S., Calhoun, L. G., Cann, A., & Tedeschi, R. G. *Coping with crises: An examination of the impact of traumatic events on religious beliefs.* 455–464.

Pierce, S. H., & Lange, G. *The experiential facilitation of memory development in the home environment.* 331–347.

Pinto, G., & Bombi, A. S. *Drawing human figures in profile: A study of the development of representative strategies.* 303–321.

Ramsey, A., Watson, P. J., Biderman, M. D., & Reeves, A. L. *Self-reported narcissism and perceived parental permissiveness and authoritarianism.* 227–238.

Schumann-Hengsteler, R. *Children's and adults' visuospatial memory: The game Concentration.* 77–92.

Shek, D. T. L. *Hong Kong parents' attitudes about marital quality and children.* 125–135.

Shelley-Tremblay, J. F., & Rosén, L. A. *Attention deficit hyperactivity disorder: An evolutionary perspective.* 443–454.

Silverman, I. W., & Gaines, M. *Using standard situations to measure attention span and persistence in toddler-aged children: Some cautions.* 397–410.

Silverstein, R. *Combat-related trauma as measured by ego developmental indices of defenses and identity achievement.* 169–179.

Solis-Camara R., P., & Fox, R. A. *Parenting practices and expectations among Mexican mothers with young children.* 465–476.

Stiles, D. A., Gibbons, J. L., & de Silva, S. S. *Girls' relational self in Sri Lanka and the United States.* 191–203.

Turnbull, O. H., & Lucas, M. D. *Is the leftward cradling bias related to lateral asymmetries in attention?* 161–167.

Valde, G. A. *Identity closure: A fifth identity status.* 245–254.

White, H., Morris, A., & Arthur, A. G. *Gender role stereotyping in picture interpretation.* 119–120.

Wiener-Margulies, M., Rey-Barboza, R., Cabrera, E., & Anisfeld, M. *Toddlers' speech and cognitive effort.* 65–76.

Winefield, H. R., & Harvey, E. J. *Psychological maturity in early adulthood: Relationships between social development and identity.* 93–103.

TITLE INDEX

Attention deficit hyperactivity disorder: An evolutionary perspective. *John F. Shelley-Tremblay & Lee A. Rosén.* 443–454.

Attribution style and projection. *John Maltby.* 505–506.
Children's and adults' visuospatial memory: The game Concentration. *Ruth Schumann-Hengsteler.* 77–92.
Children's assignment of gender to animal characters in pictures. *April G. Arthur & Hedy White.* 297–301.
Children's conception of object, as revealed by their categorizations. *Annie Desprels-Fraysse & Mireille Lecacheur.* 49–64.
Children's understanding of equality–inequality relationships for liquid quantities: The role of minimal-difference concept examples. *Bruno Andracchio & Paul Weisberg.* 477–488.
Children's understanding of the distinction between real and apparent emotions: A training study. *Mark Bennett & Mary Knight.* 267–274.
Combat-related trauma as measured by ego developmental indices of defenses and identity achievement. *Rebecca Silverstein.* 169–179.
Coping with crises: An examination of the impact of traumatic events on religious beliefs. *Wendy S. Overcash, Lawrence G. Calhoun, Arnie Cann, & Richard G. Tedeschi.* 455–464.
Delay of gratification: Mothers' predictions about four attentional techniques. *Harry L. Hom, Jr., & Heather Knight.* 180–190.
The development of metacognitive knowledge of basic motor skill: Walking. *Kang Lee & Lin Chen.* 361–375.
Differential prediction of adult student performance from Miller Analogies Test scores. *J. Daniel House & Edward J. Keeley.* 501–504.
Drawing human figures in profile: A study of the development of representative strategies. *Giuliana Pinto & Anna Silvia Bombi.* 303–321.
Effects of parent drug use and personality on toddler adjustment. *Judith S. Brook, Martin Whiteman, Joseph Shapiro, & Patricia Cohen.* 19–35.
Effects of temporally varied biased and unbiased story summaries on the suggestibility of preschoolers. *Greg A. Kidorf & Brian D. Cox.* 425–441.
Enmity in males at four developmental levels: Cognitive bases for disliking peers. *Donald S. Hayes, Elaine S. Gershman, & William Halteman.* 153–160.
Ethnicity, family achievement syndrome, and adolescents' aspirations: Rosen's framework revisited. *Kevin Marjoribanks.* 349–359.
The experiential facilitation of memory development in the home environment. *Sarah H. Pierce & Garrett Lange.* 331–347.
Explanatory style, dispositional optimism, and reported parental behavior. *Larry A. Hjelle, Elizabeth A. Busch, & John E. Warren.* 489–500.
Factors affecting children's, adolescents', and young adults' perceptions of parental discipline. *Mark A. Barnett, Steven W. Quackenbush, & Christina S. Sinisi.* 411–424.
Gender role stereotyping in picture interpretation. *Hedy White, Amanda Morris, & April G. Arthur.* 119–120.
Girls' relational self in Sri Lanka and the United States. *Deborah A. Stiles, Judith L. Gibbons, & Suneetha S. de Silva.* 191–203.
Hong Kong parents' attitudes about marital quality and children. *Daniel T. L. Shek.* 125–135.
Identity closure: A fifth identity status. *Gregory A. Valde.* 245–254.
The influences of goal-related actions and goal information on children's effort and ability perceptions in interpersonal situations. *Elaine F. Jones, Bonita L. Parker, & M. Holland Joyner.* 37–48.
Is the leftward cradling bias related to lateral asymmetries in attention? *O. H. Turnbull & M. D. Lucas.* 161–167.
Lay theories of child development. *Adrian Furnham & Catherine Weir.* 211–226.
A note on adults' color–emotion associations. *Michael Hemphill.* 275–280.
Others' actions can reflect on the self: A

developmental study of extended identity. *Mark Bennett & Caroline Cormack.* 323–330.

Parenting practices and expectations among Mexican mothers with young children. *Pedro Solis-Camara R. & Robert A. Fox.* 465–476.

Parents' perceptions of children's worries in a changing world. *Diane Gottlieb & Phyllis Bronstein.* 104–118.

Preschoolers' inferred self-esteem: The Behavioral Rating Scale of Presented Self-Esteem in Young Children. *Karen D. Fuchs-Beauchamp.* 204–210.

Psychological maturity in early adulthood: Relationships between social development and identity. *Helen R. Winefield & Eileen J. Harvey.* 93–103.

Reading ability and the use of context in orthographic information processing. *Egbert Assink, Alex A. Bos, & Göran Kattenberg.* 381–396.

Recalled parental authority style and self-perception in college men and women. *Helen Altman Klein, Kathleen O'Bryant, & Holly R. Hopkins.* 5–17.

The relation of prosocial and antisocial behavior to personality and peer relationships in Hong Kong Chinese adolescents. *Hing Keung Ma, Daniel T. L. Shek, Ping Chung Cheung, & Royce Y. P. Lee.* 255–266.

The relationship of HIV status, type of coagulation disorder, and school absenteeism to cognition, educational performance, mood, and behavior of boys with hemophilia. *Susan Dickerson Mayes, H. Allen Handford, Judy Hopkins Schaefer, Charles A. Scogno, Sara R. Neagley, Lisa Michael-Good, & Lynn E. Pelco.* 137–151.

Self-reported narcissism and perceived parental permissiveness and authoritarianism. *Angela Ramsey, P. J. Watson, Michael D. Biderman, & Amy L. Reeves.* 227–238.

Sex invariance of 13-year-old children on Piagetian task performance. *Geoffrey N. Molloy, Candice P. Boyd, Andrew R. Lowe, & Rachel F. Molloy.* 239–240.

Toddler adjustment: Impact of parents' drug use, personality, and parent–child relations. *Judith S. Brook, Li-Jung Tseng, & Patricia Cohen.* 281–295.

Toddlers' speech and cognitive effort. *Marian Wiener-Margulies, Raquel Rey-Barboza, Eulalia Cabrera, & Moshe Anisfeld.* 65–76.

Using standard situations to measure attention span and persistence in toddler-aged children: Some cautions. *Irwin W. Silverman & Michelle Gaines.* 397–410.
